EDUCATION

Master in Computer Application
Utkal University 2025 - Present

Bachelor in Computer Application
Utkal University 2022 - 2025

Higher Secondary Education
SSC(A) College, Puri 2020 - 2022

Secondary Education
SSVM Jogeswarpur, Puri 2020

SKILLS

- Languages: Java, Python, JavaScript, SQL
- Web: HTML/CSS, Bootstrap
- Data: Power BI, Advanced Excel
- Tools: Git, GitHub, VS Code
- CS Fundamentals: OOPs, DBMS, SDLC
- Problem Solving, Fast Learner

INTERESTS

- Puzzle Solving
- Sketching
- Writing & Reading

LANGUAGE

English

Hindi

Odia

ABOUT ME

Passionate developer with a focus on building functional, real-world applications. Experienced in developing full-stack projects like YatraSaathi (a travel-tech platform) and creating data-driven insights using Power BI. Proficient in Java, Python, and JavaScript, I am a fast learner eager to solve complex problems and grow within a collaborative engineering team.

PROJECTS

YatraSaathi - Travel Website

- Developed a full-stack web application using HTML, CSS, JavaScript, Node.js, and MongoDB. Implemented backend functionality and REST-based features. Managed source code using Git and GitHub.

Capstone Project – Banking & Loan Data Analysis

- Performed data cleaning, preprocessing, and analysis using Python, SQL, Excel, and Power BI. Developed interactive dashboards to analyze loan trends, repayment performance, customer behavior, and financial KPIs from structured datasets.

Quiz Application

- Developed a Java-based Quiz Application using OOP principles and Swing for the UI. I implemented core logic for user validation and score calculation, while managing source code via Git and debugging in a Linux environment.

INTERNSHIP

Machine Learning Using Python | NIELIT

- Developed a Car Sales Prediction model using Python to forecast market prices based on vehicle features. I performed data preprocessing, feature engineering, and exploratory data analysis (EDA) to improve model accuracy. Strengthened problem-solving and analytical skills while handling real-world datasets.

CERTIFICATIONS

- AI Foundations Associate – Oracle
- Google Cloud Platform (GCP) Masterclass – Udemy
- AWS Cloud Essentials – Udemy
